Get your sea legs, because Steve Cartwright's new submarine adventure game has just been launched. Your divers have finally located the greatest sunken treasure on the ocean floor, but getting back to the mother ship could get a little tricky. Your men have been spotted by a fleet of pirate scavengers and if they don't get 'em, the killer sharks will.

**Coming,  
January 1983**

Designed by Larry Miller. Monstrous spiders are determined to turn your peaceful orchard into a war zone. They spring into action, laying eggs that quickly turn into fearsome fighters. Your remote control bug cannon zaps them into bug heaven, if they don't get you first. Vibrant graphics, spooky sounds, and enough challenge to "bug" the most dedicated video game player.

**Coming,  
December 1982**

Designed by Carol Shaw. Your mission is to destroy enemy bridges, ships, aircraft and fuel depots along a heavily fortified inland waterway. And it won't be pretty because you'll be coming in low, through a narrowing valley and the enemy will be throwing everything they have at you. You'll really have to earn your wings with River Raider™ by Activision.

Designed by Bob Whitehead. A devilishly dangerous air race! In your effort to break the speed record, you'll bank around pylons, dodge tree tops and zoom through passing clouds. Look out! Hot air balloons dead ahead! Sky Jinks™ has all the chills and spills of an old time air race. Just remember: There's no speed limit in the sky!

## ACTION GAMES

Designed by Steve Cartwright. This game is a space nightmare! Imagine fighting off multiple waves of the strangest objects ever to defy the laws of gravity. Celestial dice, spinning bow-ties, furious flying widgets and even hostile hamburgers. And they drop round after round of deadly disintegrators. You'd better hope you and your courage are wide awake when you play Megamania™ by Activision®.

Designed by David Crane. Seek out the lost treasures of an Ancient Civilization hidden deep within the forbidding jungle. Swing through trees, jump over bottomless pits and journey through underground passageways, avoiding the perils of the jungle—crocodiles and cobras, scorpions and quicksand. All to find the gold—in Pitfall!™ by Activision®.

Designed by Alan Miller. You're in the cockpit of an intergalactic spacecraft. Your mission: Defend your starbases against attacking enemy starfighters. Galactic charts pinpoint enemy targets. Meteor showers slow your attack. And enemy particle cannons can quickly send you to your starbase for repairs. Computer readouts reveal energy levels, ship damage and more. *Starmaster™* by Activision® is one of the most sophisticated space games available.

Designed by Bob Whitehead. You're flying escort for a truck convoy of medical supplies. Suddenly, enemy aircraft show up on your long-range scanner. You whip your chopper around, blanketing the sky with laser rockets. The enemy responds with multi-warhead missiles. *Chopper Command™* by Activision® could be the most demanding video battle ever conceived!
